

# CHILDREN AT THEIR RIGHT WEIGHT

Sports and nutrition program especially  
for overweight children

We can help you on your way to a healthy lifestyle through

# HEALTHY NUTRITION AND SPORTS

The number of overweight children has risen sharply since 2000. More than one in six children aged 15 years are 'too heavy'. This might have unpleasant consequences for the child. (Source: Nederlands Jeugd Instituut /Youth Institute).

The above passage describes the growing problem among Dutch youth. SGE has therefore started the coaching program 'Children at Their Right Weight'.

Our (child)physiotherapists and the life-style coach work together with several parties including the GPs of SGE, youth nurses/ youth doctors of GGD-bzo and dieticians of ZuidZorg. We guide children towards a healthier lifestyle with the help of nutrition and sports.

The program lasts 3 months in which the children are intensively coached in both areas. The program is offered at six locations in Eindhoven: SGE De Akkers, SGE Meerhoven, SGE Orion, SGE Strijp, SGE Sibelius and SGE Stratum.
